

We're located right about ...Here!

AccueData is fully US owned and headquartered in Oxford, Michigan. We have been providing outstanding service to Healthcare Providers since 2005.

With 24/7 emergency support available for all of our products and services, we are always just a phone call or email message away from solving any issues.

We pride ourselves on offering **on-site** training and implementation... quite a novelty in today's information age of webinars, podcasts and video conference calls.

AccueData has forged partnerships with industry leading providers of EHR, Billing and Imaging Technologies that can be used "stand-alone" or as a fully integrated system... all delivered by a local system of on-going support.

AccueData offers cutting edge, feature rich and user friendly Practice Management Systems for the modern Healthcare Provider.

Always HIPAA compliant...We strive to provide "one-stop" solutions in the ever-changing Healthcare Industry.

Uncompromising service is our main focus. We promise to offer quality, US-based support that allows the Provider to do what they do best ...practice medicine.

EMR/EHR Training

What are Practice Fusion's top features?

The 100% free, web-based EHR includes easy-to-use features for every process in your practice:

- **e-Prescribing:** 65,000 pharmacies
- **Charting:** Flexible templates
- **Scheduling:** Email appointment reminders
- **Billing:** Bill the way you want
- **Lab Integrations:** Local and national labs
- **Referral Letters:** To any provider in the US
- **Secure Messaging:** HIPAA-compliant email
- **Documents:** Fast uploads of all file types

How can a Certified Consultant help you?

Certified Consultants provide affordable, step-by-step assistance and on-going support during your practice's Electronic Health Record (EHR) transition with minimal disruption to your daily workflow.

Certified Consultants will also work closely with your practice to help you meet or exceed your "meaningful use" criteria.

Billing Solutions

Kareo - Billing software fully integrated with Practice Fusion

Looking for a complete and integrated EHR with billing software? Use Kareo's affordable software through Practice Fusion to manage:

- *Patient demographics*
- *Insurance documents*
- *Electronic claims*
- *Remittances*
- *Eligibility checks*

Simplify your healthcare business with electronic claims processing. Practice Fusion easily integrates with Kareo's practice management system.

-OR-

Continue with your existing biller, billing service or billing software.

Practice Fusion allows you to securely email electronic super bills to your existing internal or external biller. No need to change any of your billing processes.

Document Management

Let **Smart Imaging** provide you with solutions for all of your document management needs:

- *Digitized files will allow the provider to satisfy a portion of the "meaningful use" criteria required for HiTECH Stimulus re-imburement.*

- *Digitized files provide an off site back-up system in case of fire, flood or theft.*
- *Accessing digitized files alphabetically by field or demographics saves time and increases productivity.*
- *Reclaim expensive office space and eliminate storage costs by converting your practice to a paperless file system.*

Smart Imaging offers free pickup services from most locations in Michigan, Ohio and Indiana. Upon project completion, the original hardcopy material can be returned to client or destroyed ...all at no additional charge.

Transcription Services

Central Transcription Services provides high quality voice-to-text transcription with the following competitive features:

- *Guaranteed 98% Accuracy*
- *Guaranteed 4-24 hr TAT*
- *Secure 128 BIT SSL technology*
- *Password Protected Web Portal*
- *Customizable templates*
- *Integrates for "meaningful use"*

Transcription allows providers to substantially increase their EMR SOAP Note productivity.

IT Support

AccueData also offers installation and on-going technical support for many day-to-day Practice Operating Technologies. Support can be utilized at standard hourly rates or pre-paid, reduced hourly rates.
